MESSAGE FROM THE DIRECTOR

Technological progress in our modern days has become the most important factor governing every aspect of our lives. The constant evolution of science to solve problems created by both man and science itself cannot be taken lightly or ignored. I believe that the task of engineering the environment is one that is vital to the sustainability of the ecosystem. To this end, I recognize and utilize innovative technological advances in performing that task and maintaining a standard of excellence while executing it.

CHIMEAGTA OIL AND GAS was founded upon an ambition to impact the physical and corporate environment with unparalleled excellence and quality delivery. At the core of our company's success is a genuine interest in global environmental conditions and the commitment to meet the needs of our clients with topmost efficiency.

Based on the principles we have adopted, and on the continuing innovative approaches we apply to meeting the needs of our clients and securing our environment, I am full of confidence that CHIMEAGTA OIL AND GAS will continue to develop, enabling us to achieve our goal as a globally recognized environmental engineering company.

ABOUT US

CHIMEAGTA OIL AND GAS

is a recognized leader in engineering, construction, and multi-dimensional servicing, headquartered in Port Harcourt. With a strong, diverse workforce and multifaceted project management capabilities, we deliver a wide range of services, including engineering, procurement, fabrication, construction, maintenance, logistics, and turnkey solutions for small to medium-sized projects.

Our specialization extends to:

- .Waste management solutions
- .Blasting and painting equipment supply and application
- .Procurement and supply chain services
- .Pipeline installation and repair
- .Supply of vessels and crew
- .Marine support services
- .Labour resource management

As OEM representatives for globally renowned brands like LAYHER, CHIMEAGTA OIL AND GAS combines technical expertise and a skilled workforce to support onshore and offshore oil and gas operations. Over the years, we have established a regional presence and a trusted reputation within the Nigerian oil and gas community, enabling strategic collaborations with multinational corporations.

Founded on the principle that project excellence drives profitability, our operations are built on a foundation of integrity, quality, and innovation. CHIMEAGTA OIL AND GAS is committed to delivering exceptional services that exceed industry standards, ensuring our clients' success and cementing our position as a trusted partner in engineering and construction solutions.

CHIMEAGTA
Oil & Gas Services Ltd

CHIMEAGTA
Oil & Gas Services Ltd

QUALITY POLICY

CHIMEAGTA OIL AND GAS, as an organization providing construction, procurement, equipment leasing, and engineering support services, is committed to positioning itself among the elite organizations in this region and beyond.

It is the policy of CHIMEAGTA OIL AND GAS to deliver products and services that fully satisfy our customers' needs, meet specified quality standards, and comply with all contractual, code, and regulatory requirements.

Management will ensure that objectives are established annually at both strategic and functional levels. These objectives will be defined during the final management review of each year for implementation in the following year. Employees and other stakeholders will be actively involved in policy formulation to ensure alignment and collective responsibility.

CHIMEAGTA OIL AND GAS is committed to fulfilling all applicable requirements, including legal and regulatory obligations, as well as other standards to which the organization subscribes. Additionally, we are dedicated to continually improving our Quality Management System through effective process implementation.

CHIMEAGTA
Oil & Gas Services Ltd

CORE VALUES

At **CHIMEAGTA OIL AND GAS**, our core strategy is to consistently provide exceptional services while expanding our market presence and integrating our expertise across global markets. To achieve this, we are committed to the following values:

- 1 Ethics and Integrity**
We adhere to the highest standards of ethics and integrity in every aspect of our operations, ensuring trust and transparency with our clients and stakeholders.
- 2 Exceeding Client Expectations**
By deeply understanding and responding to our clients' needs, we aim to consistently surpass their expectations. Through outstanding performance, we deliver exceptional value and support their success.
- 3 Safety First**
We prioritize safety in all our operations, adhering to responsible standards and principles. Individually and collectively, we are accountable for our safety and that of our colleagues, ensuring that every project is designed and executed with safety as the top priority.
- 4 Continuous Improvement**
Innovation and progress are central to our operations. We strive to make continuous improvement an integral part of how we work, enhancing our services and processes at every level.
- 5 Empowering Our People**
We are dedicated to attracting, developing, motivating, and retaining a diverse team of highly competent and creative professionals who are leaders in their fields. Whenever possible, we promote from within to nurture growth and reward talent early.

• • •

ENGINEERING SERVICES

We offer a wide range of engineering services targeting the oil and gas industry and beyond. Our engineering solutions include:

- Basic design, detailed engineering, and project management
- Maintenance and installation of electrical and mechanical equipment
- Equipment and instrumentation support

CONSTRUCTION

Our construction capabilities cover a diverse range of projects, from civil to structural works, in both on-shore and offshore environments. We manage projects with an emphasis on meeting client specifications, while ensuring seamless coordination between clients, consultants, and contractors. Our services include:

- Civil and structural construction
- Roofing, cladding, and waterproofing
- Underground piping, drainage, and sewerage works
- Painting, chemical coating, and lining • •
- Building works such as partitions, masonry, and plastering • • •

PROJECT MANAGEMENT

At CHIMEAGTA OIL AND GAS, we bring unparalleled innovation to project management, making us a trusted leader in delivering complex projects with precision and efficiency.

Our Approach

We treat every project as unique, leveraging our extensive practical experience to create realistic project scopes, monitor progress, and allocate resources effectively to meet schedules and budgets.

Skilled and Dedicated Workforce

Our resourceful and dedicated team is the backbone of our project management excellence. We empower them with cutting-edge project management systems to plan, track, and deliver outstanding results, ensuring every project is executed to the highest standards.

Commitment to Standards

Our project execution procedures strictly adhere to local, national, and international regulatory standards, including ISO 9001 and ISO 9002 for quality, as well as other globally recognized engineering standards.

Customer-Centric Solutions

We understand the critical importance of on-time delivery and the availability of specialized equipment to our clients' operations. Collaborating closely with our customers, we develop innovative, tailored solutions to meet their unique project requirements—no matter the scale.

With CHIMEAGTA OIL AND GAS, one call gives you access to a wealth of expertise, ensuring the seamless execution of your next project with precision, quality, and reliability.

PROJECT MANAGEMENT

SUPPLY CHAIN SERVICES

At CHIMEAGTA OIL AND GAS, we excel in the procurement and supply of industrial materials, both locally and internationally. With our vast expertise, we ensure the delivery of genuine materials tailored to meet client requests and specifications.

Materials We Supply:

1: Pipes and Fittings:

- .Carbon Steel Pipes and Fittings
- .Stainless Steel Pipes and Fittings

2: Valves:

- o Ball Valves
- o Gate Valves
- o Globe Valves
- o Butterfly Valves
- o Instrument Valves
- o Control Valves
- o Check Valves / Non-Return Valves
- o Pressure Safety Valves

3: Steam Traps

4: Sight Glasses

5: Structural Beams/ Angle Irons

6: Machine Tools

LOGISTIC AND TRANSPORTATION

CHIMEAGTA OIL AND GAS provides efficient, safe, and responsive logistics services for both onshore and offshore operations. We specialize in:

- Freight forwarding services
- Offshore logistics support
- Onshore logistics and material movement services
- Asset movement, storage, and inventory management

WASTE MANAGEMENT

Proper waste management is essential to safeguarding the environment and ensuring the health and safety of all forms of life. At CHIMEAGTA OIL AND GAS, we recognize the critical role waste management plays in protecting ecosystems and supporting sustainable development.

Our comprehensive waste management services encompass waste planning, collection, and disposal. We collaborate closely with companies and their host communities to implement sustainable waste management systems that minimize environmental impact.

Our specialized waste management services include:

- Solid & Liquid Waste Treatment (Hazardous & Non-Hazardous)
- Waste Recycling
- Tank Cleaning and De-sludging
- Design, Engineering, and Management of Waste Facilities
- Medical Waste Incineration
- Waste Conversion to Bio-Fertilizer

With a commitment to excellence, CHIMEAGTA provides innovative and environmentally friendly solutions that meet the highest standards of waste management.

WELDING & FABRICATION

CHIMEAGTA OIL AND GAS provides comprehensive welding and fabrication solutions, designed to meet the stringent standards of the oil and gas industry. Our state-of-the-art fabrication yard is equipped with cutting-edge tools and multiple advanced welding stations, featuring GTAW cladding and conventional welding systems. This enables us to deliver high-precision, durable, and reliable results for various applications.

We take pride in offering a certified range of welding procedure specifications across diverse materials such as carbon steel, stainless steel, and duplex stainless steel, leveraging

State-of-the-Art Fabrication Yard

Our fabrication yard is designed to handle complex projects with precision and efficiency:

- Advanced CNC machinery for cutting and profiling.
- High-capacity overhead cranes for heavy lifting.
- Dedicated zones for pipe and structural steel fabrication.
- Fully equipped blasting and painting facilities for corrosion protection.
- Testing areas for pressure and non-destructive testing (NDT).

Our Welding & Fabrication Services Include:

- Detailed engineering and design for fabrication projects.
- Material procurement, preparation, and quality assurance.
- Custom pipe and support fabrication for specialized needs.
- Coating, painting, and surface treatment to extend product lifespan.
- Module assembly, integration, and pre-commissioning support.

WELDING & FABRICATION

Equipment and Tools List

Blasting and Painting Equipment:

- Atlas Air Compressor (XATS 156)
- Graco Spraying Machine (Graco King)
- Abrasive Blasting Machine (CLEMCO PRODUCTS)
- Air Compressor (600 CFM) |
- Airless Machine
- Blasting Pot
- Gunner Machines
- Blasting Hood
- Driver
- Hoses with Connecting
- Accessories

Welding & Fabrication Tools:

- Inverter Welding Machine (400amp)
- 400amp Lincoln Welding Machines
- Kaierda Welding Machine
- M87XL Shaving Machine
- 15kva Soundproof Generator
- Complete Argon Accessories for 10
- Welding Machines
- Welding Tongs (20 pcs)

Instrumentation Services

CHIMEAGTA OIL AND GAS is dedicated to delivering precision instrumentation solutions that enhance efficiency, safety, and operational reliability. With our state-of-the-art instrumentation lab, we offer cutting-edge services tailored to meet the demands of modern industrial processes, particularly in the oil and gas sector.

List of Instrument Equipment Provided by CHIMEAGTA OIL AND GAS:

A. Pressure and Hydraulic Equipment

- Pressure Dial Gauge
- Digital Pressure Gauge

B. Electrical and Electronics Equipment

- Decode Resistance Box
- DC Power Supply
- Digital Manometer
- Current Unit
- Pneumatic Pressure Standard
- Load Cell Calibrator
- Deviation Unit
- Digital Multimeter
- DC Power Distributor
- DC Voltage Standard
- Frequency Function Generator
- Oscilloscope
- Function Generator
- Pipeline Inspection Meter
- Ethernet Multimeter
- Process Master
- DC Voltage and Current Standard

CHIMEAGTA
Oil & Gas Services Ltd

Our Instrumentation Capabilities

1 Instrumentation Design and Engineering:

- Comprehensive design of advanced instrumentation systems.
- Development of detailed P&ID (Piping and Instrumentation Diagrams) for process control.
- Accurate specification and selection of instrumentation equipment based on project needs.

2 Installation and Commissioning:

- Seamless installation of field instruments, control panels, and systems.
- Setup and integration of Distributed Control Systems (DCS), PLC, and SCADA solutions.
- Comprehensive loop checks, integration testing, and commissioning for enhanced system performance.

3 Process Automation and Smart Solutions:

- Integration of smart instrumentation for enhanced real-time process control and data insights.
 - Retrofitting outdated systems with modern, energy-efficient solutions.
- Optimization of industrial processes through automation and digital analytics.

4 Calibration and Maintenance Services:

- Precise calibration of instruments in-house at our state-of-the-art instrumentation lab or on-site, meeting ISO standards.
 - Routine maintenance, troubleshooting, and repairs to prevent unplanned downtimes.
- Servicing of pressure transmitters, flow meters, temperature sensors, analyzers, and control valves.

5 Instrumentation for Hazardous Environments:

- Expertise in installing explosion-proof and intrinsically safe instruments.
- Full compliance with international safety certifications such as IECEx and ATEX.

. . .

SAND BLASTING & PAINTING EQUIPMENT

Blasting and Painting Equipment Supply and Application

At CHIMEAGTA OIL AND GAS, we provide comprehensive blasting and painting solutions designed to enhance the durability, reliability, and aesthetic appeal of critical infrastructure within the oil and gas industry. Our advanced equipment, coupled with highly skilled technicians, ensures a superior standard of service delivery, addressing the unique challenges posed by harsh operational environments.

Our Blasting and Painting Services Include:

- Abrasive Blasting for Surface Preparation
- Protective Coatings and Painting Applications
- Corrosion Prevention for Pipelines, Vessels, and Equipment
- Onsite Painting Services

CHIMEAGTA
Oil & Gas Services Ltd

PIPELINE INSTALLATION / REPAIR SERVICES

Pipeline Construction:

At CHIMEAGTA OIL AND GAS, we specialize in the installation and construction of pipelines ranging from 2 inches to 60 inches in diameter. Our expertise extends to mainline cross-country pipeline construction, utilizing both mechanized and manual welding techniques to adapt to various geographic terrains. Additionally, we provide skilled in-side-plant construction for above-ground and underground piping systems in oil sands mines, SAGD facilities, and up-grader installations.

Emergency Pipeline Repair Services:

Our comprehensive emergency pipeline repair services aim to minimize environmental impact and production losses caused by pipeline integrity failures or accidental damage. With cutting-edge machinery and proven repair techniques, we effectively identify, isolate, contain, repair, replace, and rehabilitate pipelines while ensuring a swift return to operational efficiency.

Mooring Integrity and Hose Analysis:

As part of our installation and repair services, we offer specialized SPM (Single Point Mooring) Inspection, Repair, and Maintenance (IRM). By leveraging data from similar or nearby installations during the pre-FEED/FEED stages, we deliver site-specific recommendations that enhance the design and operational integrity of mooring systems.

CHIMEAGTA OIL AND GAS ensures excellence and reliability in all aspects of pipeline installation and repair, providing solutions that meet the highest industry standards.

PIPELINE INSTALLATION / REPAIR SERVICES

At CHIMEAGTA OIL AND GAS, we excel in specialized pipe fitting and welding services tailored to meet the highest industry standards. Our expertise spans a wide range of materials, including carbon steel, stainless steel, and duplex steels.

Equipped with advanced machinery, we provide:

- Shielded Metal Arc Welding (SMAW)
- Gas Tungsten Arc Welding (GTAW)

Our skilled team ensures that all welding processes are carried out in strict compliance with client specifications, guaranteeing precision, durability, and exceptional quality for every project.

CHIMEAGTA OIL AND GAS is your trusted partner for reliable installation and repair services.

SUPPLY OF VESSELS AND CREW

CHIMEAGTA OIL AND GAS provides comprehensive solutions for marine operations, focusing on the supply of vessels and skilled personnel to ensure safe and efficient operations across various sectors.

Specialist Personnel Services

We offer experienced professionals for maintenance and supervisory roles, including: (Buoy Maintenance Supervisors , Mooring Masters, Dive Supervisors)

Tanker Operations:

Our services extend to the provision of all marine vessels and resources necessary for tanker operations, including:

• • •

Tanker Mooring and Unmooring: Coordinating safe docking and undocking procedures at Single Point Moorings.(SPM).

Hose Connection and Disconnection: Ensuring secure and efficient handling of hoses for product transfer.

CHIMEAGTA
Oil & Gas Services Ltd

MARINE SUPPORT SERVICES

At CHIMEAGTA OIL AND GAS, we are recognized as a trusted stockist and supplier of marine, lifting, and safety equipment in Nigeria. Our expansive inventory includes specialized equipment designed to meet the demanding requirements of marine operations.

Our Range of Marine Equipment Includes:

.Marine Navigation & Safety:

GPS systems, radios, compasses, clocks, barometers, marine lights, and flares.

.Lifting & Mooring Solutions:

Chains, shackles, turnbuckles, rigging screws, chain blocks, lever hoists, and steel wire ropes.

.Marine Essentials:

Anchors, anodes, boat fittings, marine fenders, floats, ropes, nets, pilot ladders, and Jacobs ladders.

.Vessel Equipment:

Tugboat and yacht equipment, steering systems, motor cables, and battery systems.

LABOUR RESOURCE MANAGEMENT

CHIMEAGTA OIL AND GAS is a leading provider of skilled technical manpower solutions. Our team of experts is available for both short-term and long-term assignments, ensuring operational efficiency and eliminating the challenges of hiring and training new employees.

Technicians & Engineers:

1. Skilled mechanical technicians
2. Skilled electrical technicians
3. Mechanical Engineers
4. Electrical Engineers
5. Civil Engineers
6. Skilled electrical technicians
7. Skilled mechanical helpers.
8. Skilled electrical helpers
9. Certified pipefitters
10. argon welders
11. arc welders
12. fitter mates
13. welder mates.

Inspection Experts:

1. In-service inspectors.
2. Certified welding and coating inspectors.

CIVIL ENGINEERING SERVICES:

At CHIMEAGTA OIL AND GAS, our Civil Engineering Services division is dedicated to providing innovative, sustainable, and cost-effective solutions designed to meet the unique needs of a wide range of projects. With a strong focus on quality, efficiency, and adherence to international standards, we ensure exceptional value and satisfaction for our clients.

Our Core Civil Engineering Services Include:

- Piling Engineering and Shore Protection
 - Civil Engineering for Concrete Structures
- Civil Works and Building Contracting
 - Architectural Design and Construction
- Additional Construction and Maintenance Services
